MAKE YOUR **RESULTS** PUBLICLY ACCESSIBLE!

OPEN YOUR RESEARCH THE RIGHT WAY:

DIAMOND

(GOLD WITHOUT APCs)

- Free to read and free to publish
- Authors retain the rights to their article
- You can always publish a preprint

GOLD

(WITH APCs)

- Articles are published against a fee
- Beware of predatory publishers

GREEN

- No additional cost and possible with little effort
- Complement closed access
- Find your rights with the Open policy finder! → openpolicyfinder.jisc.ac.uk

CLOSED*

- Article or book is behind a paywall
- Accessible only via a subscription or a fee
- *combine with green

OPEN ACCESS

MYTHS OF OPEN ACCESS

MYTHS

FACTS

TOO EXPENSIVE

While some OA types are as expensive as closed access, researchers can choose OA-types that are free to read and free to publish (i.e., Diamond & Green).

LOW QUALITY

While some predatory publishers exploit the system, many disciplines have high-quality OA journals.

TOO DIFFICULT

OA types may be confusing at first. But tools like the Open policy finder make it easy to understand your rights before submitting to a journal.
